DETAILED ACTION

Election/Restrictions

1. Claims 1-5 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected species, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 06/07/05.
2. Applicant's election with traverse of species B/C in the reply filed on 06/07/05 is acknowledged. The traversal is on the ground(s) that there is no undue burden. This is not found persuasive because there is a burden on the examiner to search several species that define separate and distinct inventions.

The requirement is still deemed proper and is therefore made FINAL.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 5-9 and 17-19 are rejected under 35 U.S.C. 102(b) as being anticipated by US 5494004 issued to Hunter. Hunter discloses a method for cleaning a surface as shown in Figures 1-3. The relevant figures are Figs. 1-3, 7 and 12-14. The relevant portions of the written specification are as follows: Background of the Invention and column 4, line 27 to column 6, line 67.

Allowable Subject Matter

3. Claims 10-16 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. The following is a statement of reasons for the indication of allowable subject matter: Claim 10 appears to be allowable because the prior art does not anticipate or make obvious the use of a second fuel and second oxidizer, the second mixture being less detonable than the mixture (first fuel/oxidizer mixture). Claims 11-16 depend from allowable claim 10.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art cited on form PTO-892 are cited as of interest to show similar methods of cleaning a surface within a vessel.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Troy Chambers whose telephone number is (571) 272-6874 between the hours of 7:00 a.m. to 3:30 p.m., M-F.
